ITL SIGNS \$6 MILLION CONTRACT WITH PRESTIGIOUS MALAYSIAN HOSPITAL

8 May 2006

ITL has signed a \$6 million (AUD) contract to supply medical equipment to the prestigious Prince Charles Medical Centre (PCMC) in Malaysia.

PCMC is located in the heart of Kuala Lumpur and is owned by Petronas, Malaysia's largest company.

In a highly competitive tendering process, ITL has won the right to supply high end medical equipment into PCMC including Operating Room lights (KLS Martin), anaesthesia equipment, ventilators and incubators (Draeger) as well as monitors for clinical information and electronic charting systems for the Intensive Care areas.

At the opening of ITL's new offices in Kuala Lumpur, ITL Chief Executive Bill Mobbs said

"We acquired Heal marketing to strengthen our presence in the Malaysian and South East Asian healthcare markets. In Malaysia alone there are 25 million people, 350 hospitals and 45,000 hospitals beds. This deal with PCMC is a significant achievement for ITL in Malaysia.

Supplying a prestigious hospital such as PCMC will certainly help to build ITL's reputation as a reliable supplier of high end medical equipment. Our aim is to use this success to generate sales for our full range of medical products."

The entire contract will be supplied to PCMC by September 2006.

ITL (ASX: ITD, www.itl-limited.com) designs and manufactures innovative medical devices and procedure packs for global healthcare markets. ITL is committed to bringing products to the market that consistently prove to be market leaders in safety and innovation and supplies 200 private and public hospitals across Australia with its range of customised Procedure Packs. ITL's products have a presence in over 35 countries and protect the lives and health of healthcare workers in millions of procedures annually.
