ITL SIGNS AGREEMENT WITH FRESENIUS HEMOCARE

16 February 2007

ITL and Fresenius HemoCare have entered into a cooperation agreement to trial ITL's two new retractable safety needles. Developed under one of ITL's leading R&D Projects (TINA Project), the automatic safety needles are specifically designed for kidney dialysis and blood collection procedures.

Fresenius HemoCare is a member company of the Fresenius Group, a global health care company headquartered in Germany. Fresenius is the world leader in kidney dialysis and a major global blood pack manufacturer, with sales expected to exceed 10 billion euro for 2006.

ITL's CEO Bill Mobbs said

"Our new TINA safety retractable needle devices are attracting attention from the large multinational healthcare companies and we are very pleased to be trialing the first two products with Fresenius who are major players in the global healthcare market and the world leader in hemodialysis.

A factor in ITL's ongoing success is a strong product pipeline that is underpinned by quality R&D. Last year we invested 9.0% of Revenue in R&D and product development."

About TINA Project

The TINA (Transfusion Infusion Needle Assembly) Project is one of ITL's leading R&D projects. Underpinned by ITL's patented technology the TINA Project aims to develop four automatic retractable needle devices for use in four discrete markets, namely

- Blood Collection **
- Hemodialysis / Aphaeresis **
- Blood Sampling
- Oncology

** *Fresenius will trial the first two of the four 'next generation' devices.*

About Fresenius (www.fresenius-ag.com)

The Fresenius Group, headquartered in Germany, consists of three business segments each of which is responsible for its own business operations worldwide. The three business segments are Fresenius Medical Care, Fresenius Kabi and Fresenius ProServe. Fresenius HemoCare GmbH is a subsidiary of Fresenius Kabi.

Fresenius provides products and services for dialysis, hospital and the ambulatory medical care of patients. Around the world, Fresenius has more than 100,000 employees. Group sales are expected to exceed €10 billion for 2006.

Today, Fresenius Medical Care is the world's largest provider of dialysis products, such as hemodialysis machines, dialysers and related disposable products. Through its network of approximately 2,085 dialysis clinics in North America, Europe, Latin America and Asia-Pacific, Fresenius Medical Care provides dialysis treatment to more than 160,000 patients around the globe.

Fresenius Kabi offers a comprehensive selection of blood management products for medical professionals, including Infusion Therapy, Clinical Nutrition, Transfusion and Blood Collection.

ITL (ASX: ITD, www.itl-limited.com) is a rapidly emerging multinational in the healthcare industry. ITL specialises in creating innovative medical devices and procedure packs for global healthcare markets. ITL manufactures in Australia and Malaysia, and has representative offices in North America, Europe and Asia.

ITL patented products have a presence in over 35 countries and protect the lives and health of healthcare workers in millions of procedures annually. ITL supplies its range of customized procedure packs to over 200 public and private hospitals across Australia as well as capital equipment, instruments and procedure packs to over 160 private and public hospitals and agents in Malaysia.
