## Company Update

### Appointment of Chief Financial Officer

ITL is pleased to announce the appointment of Mr. Greg Lewis as its new CFO.

Greg has over 20 years experience in senior Finance and Operational Management including medical device and ASX listed companies. Greg's experience includes managing manufacturing operations in Malaysia, China, Taiwan, Singapore, Italy, UK and the USA, extensive involvement with mergers and acquisitions and managing the Finance function of companies undergoing rapid expansion.

Greg will join ITL towards the end of May and will be based in Canberra.

### Steriliser on track for end of April

As previously announced ITL is installing a 35 cubic metre Ethylene Oxide (ETO) sterilization plant at our new Chelsea Heights facility in Melbourne. This ETO plant will surpass the Environmental Protection Authorities guidelines and will give total in-house control of the full manufacturing cycle of our products.

When fully operational at the end of April, this new state of the art capability will complete our Australian infrastructure expansion and will deliver increased manufacturing capacity, faster delivery of products and a reduction in manufacturing costs.

Bill Mobbs  
CEO  
**ITL Limited**

*ITL (ASX: ITD, [www.itl-limited.com](http://www.itl-limited.com)) is a rapidly expanding and diversified company within the healthcare industry. Specialising in innovative medical devices and procedure packs for global healthcare markets, ITL manufactures in Australia and Malaysia, and has sales offices in Australia, North America, Europe and Asia.*

*ITL's patented medical devices have a presence in over 35 countries and protect healthcare workers in millions of procedures annually. ITL supplies its range of customised procedure packs to over 200 hospitals across Australia, and within Asia supplies procedure packs, capital equipment and instruments to over 160 hospitals.*
