## ITL announces new Chief Executive Officer

After an extensive search the Directors of ITL Limited are pleased to announce the appointment of Mr Brian Andrews as Chief Executive Office of the ITL Group, effective January 5<sup>th</sup> 2009.

Mr Andrews' commercial background includes over twenty years experience in the medical devices arena where he has successfully marketed a broad range of technologies ranging from *in vitro* diagnostics to high technology Olympus Optical Company endosurgical devices used in a broad range of minimally invasive surgical procedures.

During his career Mr Andrews has held a number of senior sales, marketing and operational roles encompassing sales and sales management, product and marketing management, new product development and the global commercialisation of new products and technologies. In addition, Mr Andrews was Managing Director of the ASX listed Sun Biomedical Limited with concurrent responsibility as CEO of the company's U.S. operating entity.

Among the highlights of his career Mr Andrews lived and worked in the United States and the United Kingdom where he led multidisciplinary teams in the development and commercialisation of market leading brands for ConvaTec, a former division of Bristol-Myers Squibb. He has managed the internal development and commercialisation of new technologies and brands as well as complex, high value strategic alliances.

Mr Andrews holds the degrees of Bachelor of Science, Bachelor of Business, majoring in marketing, and a MBA from Monash University.

Julian Gosse  
CHAIRMAN

*ITL (ASX: ITD, [www.itl-limited.com](http://www.itl-limited.com)) is a diversified healthcare company, specialising in innovative medical devices, procedure packs and medical equipment for global healthcare markets. ITL manufactures in Australia and Malaysia, and has sales offices in Australia, North America, Europe and Asia.*

*ITL's patented medical devices have a presence in over 35 countries and protect healthcare workers in millions of procedures annually. ITL supplies its range of customised medical procedure packs to over 200 hospitals across Australia, and within Asia supplies medical equipment and instruments to over 160 hospitals.*
