ITL Announcement

American Red Cross Contract Extension

ITL Limited is pleased to announce that the American Red Cross has signed a three year contract extension with ITL Corporation in the USA. The contract includes a range of ITL's award winning blood banking safety ancillary devices used during blood collection and component production processes. ITL Corporation has been supplying the American Red Cross since 1998.

The American Red Cross is the largest single supplier of blood and blood products in the United States, collecting and processing more than 40 percent of the blood supply and distributing it to some 3,000 hospitals and transfusion centers nationwide. The Red Cross also plays a leading role in protecting the safety of donors and patients and increasing the availability of blood, while also providing life-saving blood and blood products to patients in times of emergency and disasters.

ITL specialises in the design, manufacturing and marketing of blood collection, safety and ergonomic supplies, medical procedure kits and equipment that are sold globally. ITL's products have a presence in over 38 countries, and protect the lives and health of millions of healthcare workers. ITL is committed to bringing products to market that consistently prove to be market leaders in safety, ergonomics and innovation.
