TiMO™

Tube Management Organizer

Safely Organizes test tubes
before and after blood sample
collection

Facilitates Confident test tube
management

Securely Holds test tubes during
blood sample collection and transport

www.itlcorporation.com

TiMO™ Tube Management Organizer holds and organizes test tubes before, during, and after sample collection. **TiMO™** ensures confident test tube management throughout the whole process.

When multiple blood samples are collected, **TiMO™** provides a simple mechanism to keep patient blood samples together and organized during collection and transport.

Flexible Material and Versatile Design

TiMO™ securely holds test tubes while allowing easy access for blood sample collection. **TiMO™** reduces the potential risk for test tube mix-up.

Clear Visibility and Access to Labels

Easy to apply labels and access patient identification number or other barcodes while securely held in **TiMO™**.

Product Information

 Latex Free  Single Use

TiMO™ accommodates 2mL - 15mL test tubes with outer diameters ranging from 13mm - 16mm. Test tubes are not included.

Product Code

C100400 1,500 units / case
